MOHAMMED ABDUL MOID

Hyderabad, India | 10abdulmoid@gmail.com | +91-6302486692| LinkedIn | GitHub | www.abdulmoid.tech

EDUCATION

Osmania University, Muffakham Jah College of Engineering and Technology **Hyderabad, India**

Bachelors in Engineering (BE) in Computer Science & Engineering | **Concentration:** AI and DS June 2026

TECHNICAL INFORMATION

- **Programming Languages:** Python, Java, C
- **CS Fundamentals:** Data Structures & Algorithms, Big-O/Complexity, OOP/OOD, Design Patterns, Problem Solving
- **Backend / Systems:** FastAPI, Node.js, Express, REST APIs, WebSockets (Socket.io), Concurrency (threading), Scalability, Fault Tolerance *(concepts)*
- **Databases / Cache:** MySQL, Amazon Aurora, SQLite (SQL), Redis (pub/sub)
- **Cloud / Dev Tools:** AWS (S3, SageMaker, Rekognition, Bedrock, SNS, Lambda, EC2, IAM, CloudFront), Boto3, Docker, Git, Linux
- **ML / CV:** PyTorch, TensorFlow, Keras, scikit-learn, OpenCV, YOLO, NumPy, Pandas
- **LLM / Agent Tools:** OpenAI API/SDK, LangChain, LangGraph

ACADEMIC PROJECTS / PERSONAL PROJECTS

Face recognition CLI. ***Stack: Python • InsightFace • OpenCV •NumPy • scikit-learn • Pillow***. **GITHUB**

- Implemented face analysis with InsightFace Buffalo models, 106-pt facial landmarks, and 512-D embeddings, improving match robustness on varied poses/lighting.
- Achieved 60+ FPS real-time recognition by using background threads, frame-skips, and camera optimizations.

Chatify Stack: ***Node.js • Express • Socket.io • JavaScript (ES6+) • Redis (pub/sub)*** **GITHUB**

- Developed a real-time chat application with Node.js and Socket.io, supporting instant message delivery under 200ms latency in local testing.
- Structured codebase with modular components, enabling scalability to 100+ concurrent connections in its current architecture.

POST AGENT: FastAPI + OAuth2 • SQLite + SQL • pytest + Docker • LinkedIn UGC API• APScheduler + RSS **GITHUB**

- Built a FastAPI multi-tier service with APScheduler to poll RSS on a configurable interval (default 1800s) and generate LinkedIn drafts capped at ≤3000 chars (2–4 takeaways, 3–6 hashtags).
- Integrated official LinkedIn OAuth2 + UGC API with CSRF state validation, token expiry checks, and human-in-the-loop approval before publish (no scraping).
- Designed SQLite (SQL) persistence for 3 entities (tokens/drafts/posts) with URL normalization + UNIQUE(url) dedup, plus pytest unit tests and Docker/Compose deployment for reproducible runs.

NEX-I Stack: Python • YOLOv8 • OpenCV • PyTorch • AWS S3 • Twilio • Boto3 • Threading **GITHUB**

- Engineered real-time weapon detection system using YOLOv8 with 3M+ parameters, achieving 84.1% precision and 74.3% recall across multiple camera feeds.
- Optimized inference pipeline enabling 20-30 FPS with <200ms detection latency.
- Integrated AWS S3 and Twilio API with <2s alert delivery time.

PROFESSIONAL EXPERIENCE

Full Stack Developer with AI Integration Intern @ The Student Spot Sept 2025 – Present

- Owned end-to-end delivery of **React + Node.js/FastAPI REST APIs** powering internal dashboards used by **500+ users.**
- Executed in **Agile/Scrum** (planning, standups, reviews/retros) + code reviews; **drove tickets** from ambiguity to shipped releases.
- Integrated **LLM workflows** on live website data; **debugged/profiled APIs/models** to reduce end-to-end latency by **~20%.**

MANAGERIAL EXPERIENCE

IEEE SMC (Systems, Man and Cybernetics) MJCET (Web Master) March 2024 – Present

- Managing and updating website content, structure, and uptime while tracking performance and SEO.
- Maintaining site security, access control, and backups, and fixing issues quickly.
- Led end-to-end technical infrastructure for Telangana's first 24-hour Datathon, ensuring platform stability.

AWS CC MJCET (Machine learning lead) Jan 2025 – Present

- Leading end-to-end ML pipeline development and mentoring on model deployment.
- Applying advanced ML, MLOps, data engineering, and LLM skills for production-ready solutions

COURSES

Machine Learning Foundations – **(AWS Educate)**
Model Context Protocol(MCP) -**(Hugging Face)**
Fundamentals of Agents - **(Hugging face)**
Python Full Course: Beginner to Advanced **(GFG)**
Oracle Cloud Infrastructure 2025 Certified Generative AI Professional **(Oracle)**
Oracle AI Vector Search Certified Professional – **(Oracle)**
Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate– **(Oracle)**
